## Social Narrative

### Going on a Field Trip to Manatee Lagoon

We are going to Manatee Lagoon. We will learn about manatees.

Once the bus is parked, we will be greeted by Manatee Masters.

## Social Narrative

The Manatee Masters will go over some important rules:

- I will walk with my group when moving from station to station.
- I will raise my hand if I have a question.
- I will walk slowly at Manatee Lagoon.
- I will keep both of my hands by my side and observe the fish with my eyes.
- I will use my indoor talking voice.
- I will keep both of my feet on the ground when I look for manatees.

## Social Narrative

If my class is large, we will be divided into groups. Each group will rotate through three stations and then meet again at the end of the program.

My group will be led into the building by a Manatee Master.

## Social Narrative

The Manatee Master will lead our stations. We will learn about different environmental topics.

## Social Narrative

We might touch manatee bones.

## Social Narrative

We might do an activity requiring us to move around.

## Social Narrative

We might do an activity requiring us to sit and observe.

## Social Narrative

We might do an activity requiring us to work with each other.

## Social Narrative

Once we have rotated through all stations, we will meet back up with the other groups.

## Social Narrative

There will be one to two security guards around.

## Social Narrative

Manatee Lagoon can get loud and crowded. If I need to go somewhere quiet, I will let someone know.
